50X1-HUM

- The State Glove Factory (Panstwowa Fabryka Rekawiczek) No. 23 at ul. Lukasinskiego in Swidnica (Schweidnitz) employs approximately 1,000 workers, working in three shifts, and about 50 office employees. The plant produces gloves and leather jackets for the Air Force. Three buildings comprise the plant. One is approximately 500 meters long and includes the sewing shop and finishing shop. It is a single-story building roofed with tar paper and plastered white. The second building is approximately 300 meters long and is the tannery. It is a singlestory structure roofed with tar paper and plastered white. The third building is a single-story structure with a tiled roof, plastered white, which houses the administration offices. The plant is guarded by the Industrial Guard and entry to the grounds is by pass only.
- The State Textile Factory (Panstwowa Fabryka Tekstylna), ul. 3-go Maja in Czestochowa employs approximately 10,000 workers, working in three shifts. plant produces army uniforms, clothing, sacks and tarpaulin. The factory grounds are about two square kilometers, and include the sewing, finishing, cutting-out, combing, yarn-winding workshops, warehouses and administrative offices.
- The Jarocin Clothing Factory (Jarocinskie Zaklady Odziezowe), ul. Walki Mlodych 107 or 108 at Jarocin (P52/X61) employs about 150 workers. The plant manufactures uniforms and underwear for the Armed Forces. The factory includes a three-story building, approximately 40 meters long, a two-story building, approximately 20 meters long and two single-story buildings, about 20 meters long.
- The State Screw Factory (Panstwowa Fabryka Srub) is located approximately one kilometer from Debno Lubuskie in a wood, in the direction of Mysliborz (Soldin-053/Q70). In March and April 1952, an urgent order was received for bolts,

	•	screws and nuts for tanks. The factory is a one-story building with a chimney about 20 meters high. The factory has 30 automatic lathes.
	Γ ₅ .	An underground explosives plant is located at Majdan and Deba in the Sandomierz Forest (Puszcza Sandomierska).
	6 .	The State Meter and Watch Factory (Panstwowa Fabryka Licznikow i Zegarow) at ul. Lukasinskiego, in Swidnica, is the largest industrial plant in the area in Swidnica, covering one square kilometer. The plant employs approximately 6,000 workers in three shifts. Most of the workers are members of the Party and they are supervised by the KBW (Corps of Internal Security). The plant manufactures meters, many of which are for military purposes. The plant is guarded by the Industrial Guard and entry is by pass only.
	7.	The former Pocisk Motorcycle Plant at Warsaw-Prage changed from the production of type SHL-125 to 350 ccm. motorcycles for the Armed Forces. The prototype of the latter was designed by the research and construction office of this plant.
	8.	The machine factory Gollnow and Sons, formerly located in Szczecin, is now operated by the Russians and is producing submarines. Since the plant was nationalized, Gollnow and Son has established a new plant in Duesseldorf. 2 50X1-HUM 50X1-HUM
		1. Comments this plant is known as the Frecision Apparatus Manufacturing Plant (Zaklady Wytworcze Aparatury Precyzyjnej).

50X1-HUM

Comment: The plant in Duesseldorf is located at Rather Strasse 49.
